

ACCESSORIES – Slitter + Matrix Remover

The longitudinal label slitter + matrix remover satisfies the present-day necessity to make the most of the print area with the possibility to obtain more rows of labels from the same roll, and then split it through the use of the slitter.

The machine can also be used only to remove the label matrix or only as slitting system.

The matrix removal and slitting operations are performed simultaneously. It is a specific machine to handle die cut label rolls and ideal for all slitting needs.

The new label slitter, equipped with three 3" fixed core holder is able to work rolls with a diameter of 250mm. The maximum width of the roll is 220mm and it is possible to obtain rows of labels not narrower than 25mm.

Technical Specifications:

- 4 Blades included
- 3" fixed core holders
- Outside roll diameter up to 250mm
- Media width up to 220mm
- Minimum slitting width 25mm
- Manual speed adjustment

Dimensions

L: 820mm
H: 560mm
W: 470mm
Weight: 35kg
